

## *Electric Heating System - Snow Melting*

**The Snow Melting Mat** is designed to heat the surface of the walkway to temperatures snow and ice cannot freeze upon.

**The Snow Melting Mat** systems are made from high quality DuPont heating cable insulation allows for high wattage output.

**The Snow Melting Mat** flexible fiberglass mesh is used to arrange the heating cables in an easy shaped mat.

### Tech Data :

Coverage Area	<b>9 to 113 Sq''ft per unit</b>
Width	<b>18' and 30' Inch</b>
Cable Thickness	<b>1/4' Inch</b>
Volt	<b>120 or 240</b>
Watt per Sq''ft	<b>35 and 45</b>
